

Zue Co Media

Testimonial

“Working with Zueco Media showed me what real performance marketing looks like. We launched Link2Pay with zero brand presence, no previous users, and no existing audience — yet within the first 30 days, Zueco Media acquired over **49 new trial users** for our platform.

The campaign was data-driven from the start. They tested multiple creatives, refined messaging, and optimized our sign-up funnel based on real user behavior. Our best-performing ads generated incredibly **strong click-through rates and a cost-per-trial that proved there is genuine market demand for our product.**

Even though our conversion from trial to paid users didn’t hit where we expected, the data clearly showed the issue was with our onboarding process — not the marketing. Zueco Media delivered **exactly what they promised: predictable user acquisition and validated demand.**

If you’re trying to launch a SaaS or acquire real users quickly, Zueco Media isn’t just an ad agency — they’re **a strategic growth partner** who understands product, funnels, and performance at a deep level.”
